## Measuring Tools

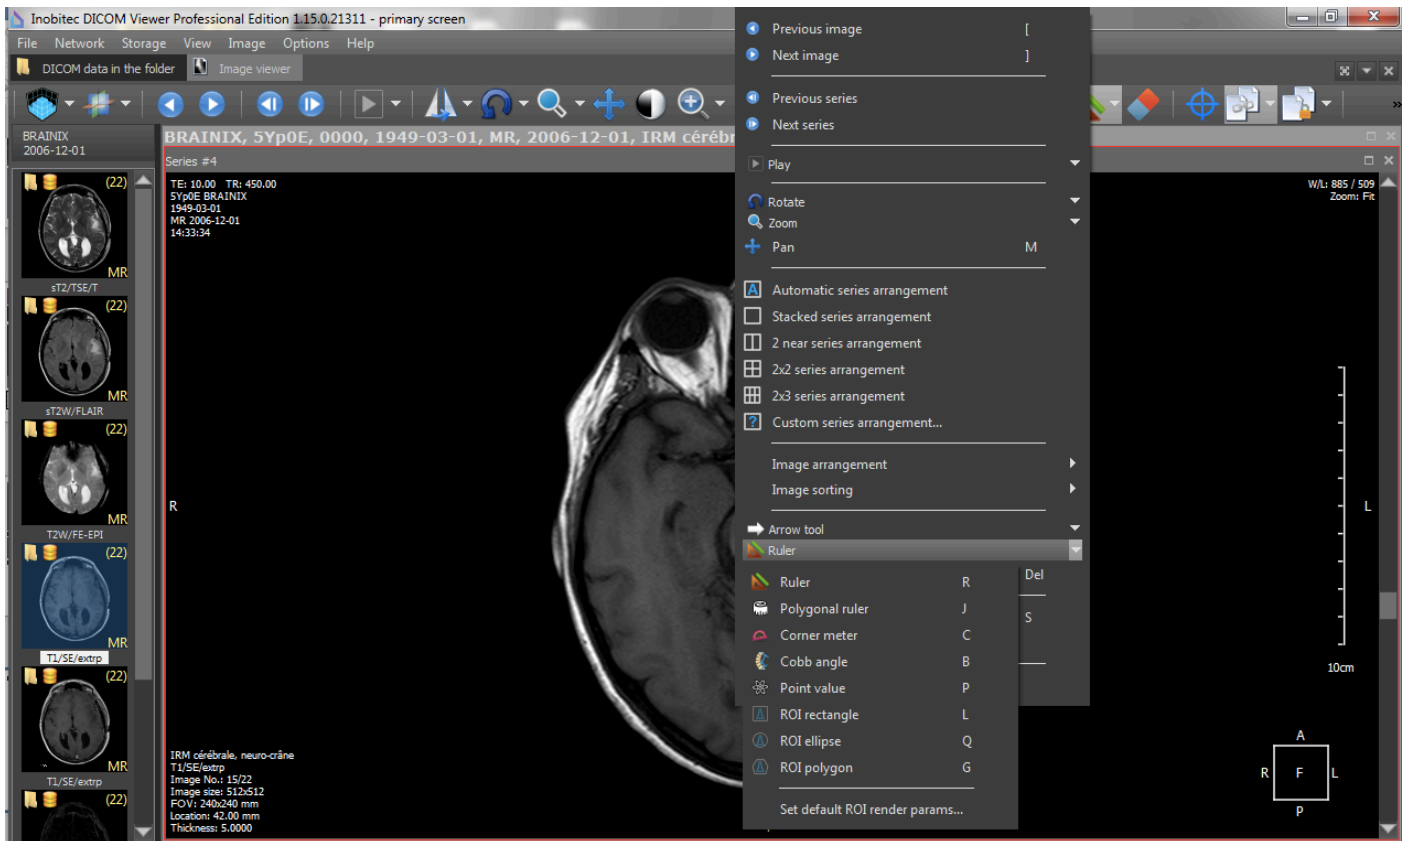

Wide array of measurement & annotation tools at your disposal. Even they have keyboard shortcut if that's your style!

**3D Pointer:** For tracing your finding on other views/acquisitions/series.

No learning curve: Everything Important at RIGHT CLICK!

No learning curve:

Intuitive Video User Manual: Don't Know what that button do? Just point mouse & video Manual will tell you the secret!

## MPR: Multiplanar Reconstruction

## MPR: Multiplanar Recons with adjustable THICK SLAB within!

## MPR: Curved MPR Mode

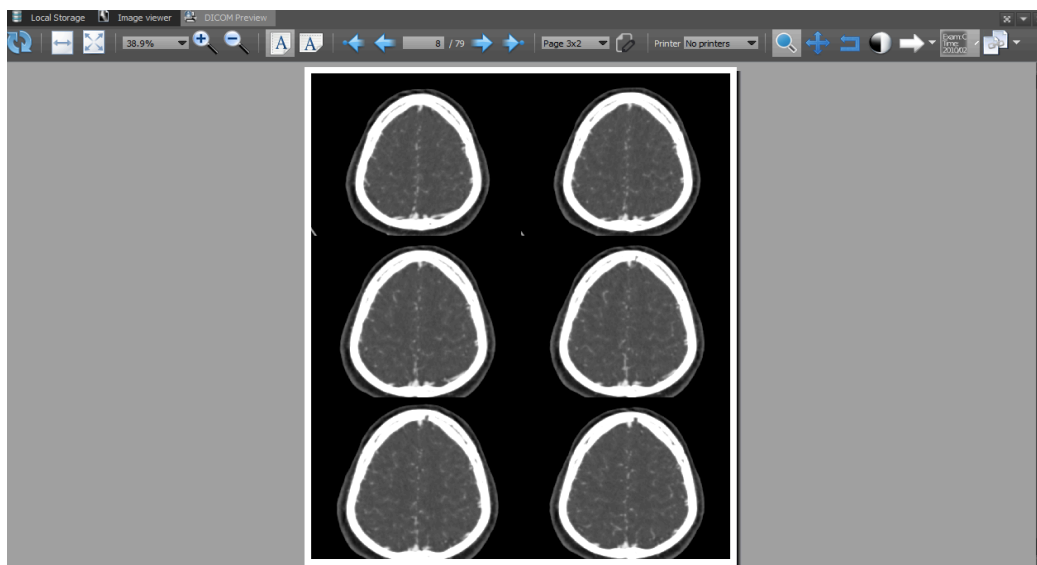

## GPU Volume Rendering:

## Single Click Angio Post-Processing: Using Dual Energy DSA as well as Single Energy AI segmentation

## Film & Paper DICOM printing

## Advanced Vessel Analysis Module (Optional Module)

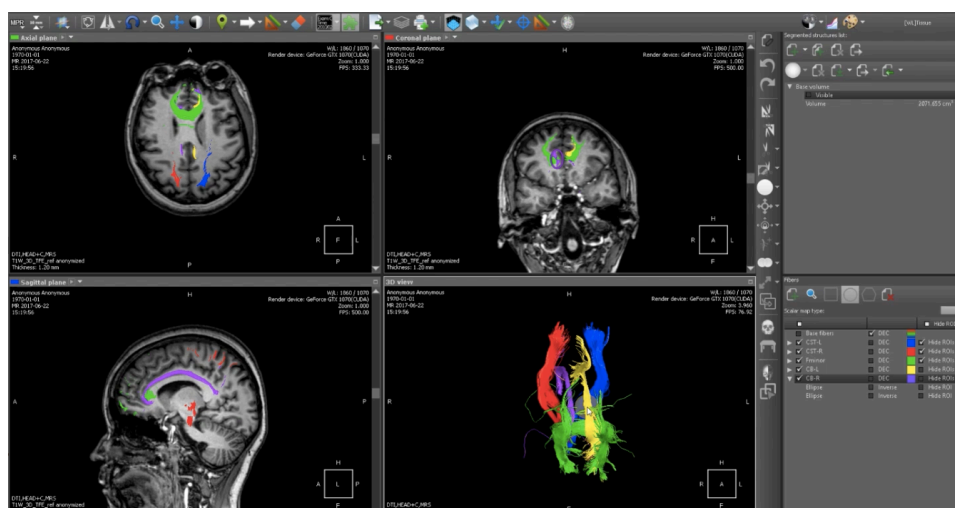

## Coronary Analysis Module with "Auto Lumen Detection, Calcium Scoring & Stenosis" : (Optional Module)

## PET CT Analysis Module: Fusion, 3D ROI & "SUV: Body Mass, LBM, Body Weight, BSA" : (Optional Module)

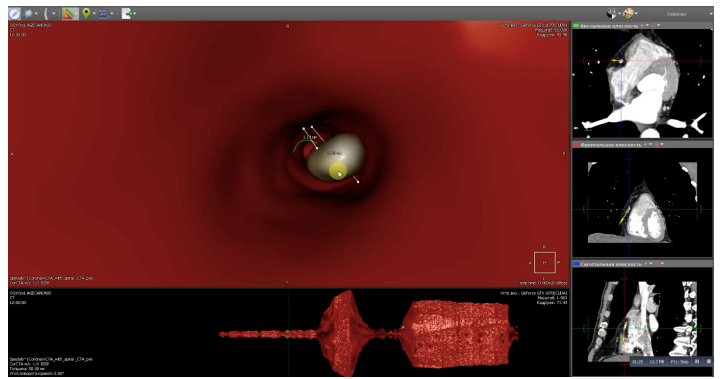

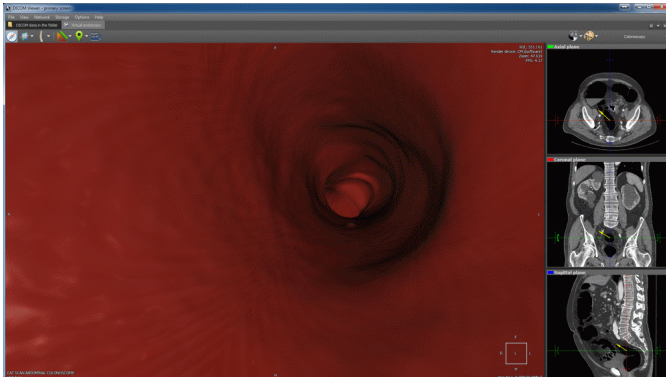

## DTI Module with Export to Neuro Navigation : (Optional Module)

## Virtual Endoscopy: Air Filled & Contrast Filled Both

## Lung Lobular Airway Segmentation:

## Liver Segmentation
